

FRONTEND INTEGRATION

Admin Portal

Drafting · Knowledge · LEX

API contracts and start→end flows for Drafting Desk, Knowledge CMS, and LEX Console.

Document ID: NL-FE-ADMIN-PORTAL-001

Version 1.0 · 25 August 2026

Auth: JWT + X-Client-Role: Admin

PRODUCTION BASE

<https://nexus-lexis-backend-ql8w.vercel.app>

1. What shipped

Room	Purpose
Drafting Desk	Queue + assign custom_docs + drafting orders; 24h SLA
Knowledge content	SEO CMS — 4 pillars (not file downloads)
LEX Console	Client/public LEX oversight + reload Q&A; sheet

SCOPE Free template files stay at /knowledge-bank/*. Knowledge articles are CMS pages at /knowledge/articles. Do not put lawyer LEX in the LEX Console UI.

2. Flow A — Drafting Desk

```
Client pays / submits custom draft
→ GET /admin/drafting-desk/orders (+ /stats)
→ POST /admin/drafting-desk/orders/assign
  { kind, appointmentId|orderId, lawyerProfileId|caProfileId }
→ 24h SLA + professional notification
→ Lawyer/CA /orders → deliver
→ Client My Documents
```

Assignable list: GET /api/v2/admin/assignable-professionals. Execution still uses existing lawyer/CA order + appointment deliver APIs.

3. Flow B — Knowledge CMS

```
POST /admin/knowledge/articles (draft)
PATCH ../:idOrSlug { status: published }
Public: GET /knowledge/articles?pillar=
        GET /knowledge/articles/:slug
```

pillar	Use
legal_articles	Long-form legal explainers
law_summaries	Short law / ordinance summaries
free_templates	Content pages linking relatedServiceSlugs
legal_calculators	Calculator landing / SEO pages

4. Flow C — LEX Console

```
Client/guest → POST /api/v1/lex/chat/
Admin → GET /admin/lex/stats · /sessions · /sessions/:key
       → POST /admin/lex/turns/:id/flag
       → DELETE /admin/lex/sessions/:key
       → POST /admin/lex/question-bank/reload
```

GUEST LIMIT Guests: max 4 prompts then 401 LEX_LOGIN_REQUIRED. Logged-in clients: unlimited.

5. Endpoint cheat-sheet

Method	Path
GET	/api/v2/admin/drafting-desk/stats
GET	/api/v2/admin/drafting-desk/orders
POST	/api/v2/admin/drafting-desk/orders/assign

Method	Path
CRUD	/api/v2/admin/knowledge/articles[:idOrSlug]
GET	/api/v2/knowledge/articles[:slug] (public)
GET	/api/v2/admin/lex/stats /sessions
GET/DEL	/api/v2/admin/lex/sessions/:sessionKey
POST	/api/v2/admin/lex/turns/:turnId/flag
POST	/api/v2/admin/lex/question-bank/reload

6. FE checklist

#	Build
1	Admin nav: Drafting Desk, Knowledge CMS, LEX Console
2	Desk table + Assign drawer (lawyer/CA picker)
3	Knowledge editor + public /knowledge pages
4	LEX stats, transcripts, flag/delete, Reload Q&A;
5	Reuse lawyer/CA deliver — no new deliver API
