

# Knowledge Bank Reads

Articles · Summaries · Judgements + PDF popup

NL-FE-KB-READS-001 · NL-BE-KB-READS-001 · v1.0 · 13 Sep 2026

Base: <https://nexus-lexis-backend-ql8w.vercel.app/api/v2>

## 0. Product rule

Card is JSON. Body is one application/pdf. Admin publish updates landing cards; click opens DocumentPreviewModal with file.url. Not Library templates, not calculators, not SEO CMS.

## 1. Headers & errors

| Header                        | Value                              |
|-------------------------------|------------------------------------|
| Authorization + X-Client-Role | Admin JWT + Admin                  |
| Create / file upload          | multipart/form-data                |
| PATCH metadata                | application/json                   |
| Public PDF                    | no auth · CORS * · application/pdf |

422 publish without PDF · 409 slug taken / locked · 413 >15MB · 415 not PDF

## 2. Endpoints

| Method          | Path                                                      |
|-----------------|-----------------------------------------------------------|
| GET             | /knowledge-bank/articles summaries judgements             |
| GET             | /knowledge-bank/{pillar}/:slug[+ /file]                   |
| GET             | /admin/knowledge-bank/entries                             |
| POST            | /admin/knowledge-bank/entries (multipart + optional file) |
| PATCH           | /admin/knowledge-bank/entries/:id                         |
| PATCH           | /admin/knowledge-bank/entries/:id/status                  |
| POST/DELETE/GET | /admin/knowledge-bank/entries/:id/file                    |

### 3. Public articles layout

```
{
  "success": true,
  "data": {
    "featured": { "placement": "featured", "title": "...", "file": { "url": "..." } },
    "stack": [ /* 0-2 */ ],
    "mini": [ /* rest */ ],
    "items": [ /* all */ ],
    "counts": { "published": 6 }
  }
}
```

Extras: placement, kicker, band (seal|gold|navy), author, credit, readMins. Only one featured; at most two stack — else 422 reject.

### 4. Summaries / judgements

```
// summaries
{ "data": { "filters": ["All", "Constitutional", ...], "items": [...], "counts": { "published": 9 } } }
// extras: tag, chapters, amended

// judgements
{ "data": { "items": [...], "counts": { "published": 6 } } }
// extras: court, cite, holding, spine (sc|hc|lhc), tags, readMins
```

### 5. Admin create (multipart)

```
POST /admin/knowledge-bank/entries
pillar=articles&title=...&slug=...&status=draft&excerpt=...
placement=stack&kicker=...&band=seal&readMins=5
file=<pdf> # required if status=published
```

### 6. PDF popup

file.url → pdf.js getDocument. Public file route: inline PDF, HEAD ok, ?download=1 attachment, cache-buster ?v=updatedAt after replace. Draft/retired → 404.

### 7. FE swap

| Current                | API                                |
|------------------------|------------------------------------|
| Hardcoded articles JSX | GET /knowledge-bank/articles       |
| STATUTES               | GET /knowledge-bank/summaries      |
| JUDGEMENTS             | GET /knowledge-bank/judgements     |
| Click no-op            | pdfUrl: entry.file.url             |
| Admin local SEED       | GET/POST/PATCH .../entries + /file |

### 8. Delivery

| P  | Item                                     | Status   |
|----|------------------------------------------|----------|
| P0 | CRUD + PDF + public layouts              | Shipped  |
| P1 | Featured/stack rules + search/pagination | Shipped  |
| P2 | Hard delete / CDN / PDF search           | Deferred |
